

Host pipeline timing (radio not measured)
Synthetic / engineering validation — not patient data.

Host alert path (features + one model)
FSR sample period (firmware design)
Inference (random_forest)
Inference (linear_svm)
Inference (decision_tree)
Inference (logreg)
Inference (threshold_heuristic)
Inference (zone_gbm)
Inference (logreg_production)
Preprocessing / feature extraction
BLE packet decode (host, not radio)
